DAY 3 Glen Canyon Dam-Antelope Canyon- Horseshoe Bend-SLC

Colorado Plateau: The only desert plateau in the United States. After years of erosion from the Colorado River, some of the most stunning nature sceneries had formed here. Red Rocks, arches and mesas decorate this vase landscape with their brilliant colors.

Glen Canyon Dam, Lake Powell (PASS BY) : Lake Powell is the second largest artificial water reservoir in the U.S. and it also marks the starting point of the Grand Canyon. See the depth of the Lake Powell as we travel across the Glen Canyon Dam.

Antelope Canyon: One of the most recognizable and famous natural landscapes in the world and a must see for photography enthusiast. Millions of years of flash flood and natural erosion gifted us these slot canyons, with their smooth wavy curves and gorgeous colors from the sand sandstone, it truly is a wonder of nature.

Horseshoe Bend: Carved by the Colorado River, you can witness the water slowly flowing pass underneath your feet in this horse shoe shape bay as you stand above it on the edge of the cliff.

Hotel: Ramada Inn SLC or Similar

DAY 4 Jackson, WY-Grand Teton NP-Yellowstone NP

In the morning, we will head to the small town of Jackson, Wyoming, a famous frontier town during the Western development. Afterwards we will head into Grand Teton National Park passing by Jackson Lake and stop at an outlook to view the Grand Teton Peak. From there, we will take you into the first national park in the world, Yellowstone National Park. Spend the night in West Yellowstone.

Jackson, WY: famous frontier town, located at the crossing of Grand Teton and Rocky Mountains, it became a heaven for outdoors sports enthusiast. It is also the third largest artwork exchange location in the world and a popular vacation destination for the wealthy. The widely praised Elk Antler Arches Park, with its four arches made with thousands of elk antlers is a must see.

Grand Teton National Park: one of the most beautiful national parks with its snow covered mountain peaks year round and wide range of wild life ecosystem. It even attracted great writer Ernest Hemingway to fall in love with this place and had been the backdrop for countless Western movies.

Yellowstone National Park: the very first national park in the whole world, Yellowstone attracted countless visitors over the year with its unique geothermal activities and fascinating wild life. You will find all four different kinds of geothermal activities, geyser, hot spring, fumarole and mud pot as we take you travel through the park.

Yellowstone Lake (West Thumb): this is the highest altitude volcanic lake in North America. We will take you to walk along the trail beside the lake and see the tranquil lake view plus all the beautiful sites on the way, like Abyss Pool, Black Pool, and Fishing Hole.

Old Faith Geyser: the most famous landmark inside Yellowstone, it's also the logo of the national park, erupting roughly every 91 minutes, this is a must see when you are inside Yellowstone.

Grand Prismatic Spring: the third largest hot spring in the world, it's the most renowned hot spring in the national park. Setting foot into the area will surround you with steam and allowing you an up close view of the brilliant colors inside the hot spring.

Fountain Paint Pot: walking along this trail will provide you a great view of the light pink color mud pot with its constantly boiling mud bubbles and the fumaroles nearby.

DAY 5 Yellowstone NP-Buffalo Bill Dam-Gillette

In the morning we will continue our tour inside Yellowstone National Park, visiting Norris Basin, Yellowstone Canyon, Yellowstone Fall, Mud Volcano, Fishing Bridge, Hayden valley. After we all finished those amazing attractions, will exit the park from the east entrance to Buffalo Bill Dam to enjoy the scenic view along the way. We will arrive and spend the night at Gillette, Wyoming.

Norris Basin: this is the most concentrated location of geothermal activities in Yellowstone National Park. While walking on the trail in this steamy fairyland, you'll be treated to a great view of all the hot springs along the way.

Yellowstone Canyon (Artist Point): see the canyon in all its colorful glory. The rock walls of the cliff was painted yellow by long years

exposure to the sulfur content from the surrounding thermal, thus named Yellowstone. We will view the Canyon from the Artist Point viewing area, one of the best view for this location.

Yellowstone Waterfall: you might see the waterfall from afar along the way, but we'll take you one step closer and give you a view right next to the waterfall to experience in person its power.

Mud Volcano: one of the highest concentrations of onus pots in the national park. See the Mud Cauldron, Dragon mouth spring and Mud Volcano along with a chance of seeing some wild lives in the area.

Fishing Bridge: The original bridge was built in 1902. The Fishing Bridge was historically a tremendously popular place to fish. Angling from the bridge was quite good, due to the fact that it was a major spawning area for cutthroat trout. It finally became to the best place to observe the Yellowstone Trout. Usually the trout will spawn in this area and jumping out the water during the summer time.

Hayden Valley: While once there was a lake here, Hayden Valley is now a wildlife paradise and the location of the largest rut of free roaming bison in the world.

Buffalo Bill Dam: named after the famous Western showman, this dam was created by blocking the Shoshone River and flooding the valley. It provides a beautiful yet peaceful view of the surrounding mountains and rock formations.
